

Udyama, an enabling Development Organisation undertakes an 'attempt' or 'effort' aimed towards desired outcomes with a big dream towards building a resilient society that is perpetually equipped for meeting current and next development challenges of 50% rural villages will be urban in 2050. There is a growing demand for skilled and trained manpower to suit the current market oriented demand for employable marketable skills & skill up gradation opportunities. Hence Skill training has a greater role in the livelihood options for the unemployed rural & school drop outs and unemployed youth.

UDYAMA thus facilitates range of skill building programs in provisioning inputs & knowledge base, protecting resource base, promoting skills, entrepreneurs, technology & risk transfer.
